## Successful startup in Masisa do Brasil

*IMEAS SPA, Italy, is proud to announce the successful startup and commissioning of its ParticleBoard Sanding Line installed in Masisa Ponta Grossa, Parana, Brasil.*

The line consists of 8 sanding units arranged in two groups of four contact rolls and four platens each. The line is able to process boards wide up to 2900 mm and with a thicknesses that can span from 6,0 up to 30,0 mm. Lower thicknesses are also possible. The acceptance took place on June 24, 2009.

The design of the sanding equipment, which is based on our proven *SuperPerformance*<sup>™</sup> technology, features a maximum sanding speed of 100 meters/min, sturdy frames, well balanced roll for no-vibrations, high-power/width ratio for high speed sanding, a very stable and well-controlled abrasive belt and optimized exhaust air consumption.

For further details about IMEAS sanding solutions, please visit: <http://www.imeas.it/products>.

### Company Profile

IMEAS spa is an Italian company with branches in four continents, that is specialized in manufacturing and supplying calibrating and sanding lines for wood-based panels as well as gypsum, plastic and rubber boards. The company produces and supplies also turn-key plants for grinding and polishing of stainless metals. The IMEAS Group employs over 150 people worldwide and its net sales in 2006 were EUR 20 mln, of which more than 95% for export.
